DATA REGISTRY
Equip & Supplies

Dear Sir:

1. We are in receipt of a letter from Mr. Ray Kline to Mr. Casey, dated 8 May 1981. The letter provided a synopsis of the economic and environmental benefits of silver recovery and subsequently requested that material be made available to cognizant personnel. The letter also requested the one-time submission of data to you.

2. This Agency strongly endorses silver recovery and has had an active program for years. Historically, we have cooperated with the intelligence community for the consolidated disposal of classified film through the Defense Logistics Agency (DLA). In fact, the Agency has recently contributed to the construction of a state-of-the-art, energy-efficient, reclamation facility located at [redacted] which is scheduled to become operational later this year. Our photography branch has been obtaining silver from used hypo solution since about 1967, and thereby may be a leader in this field. We have been reporting the amounts semiannually as requested. The silver has been and is shipped to the DLA.

3. Due to the classified nature of Agency activities, it is proposed that the present arrangement for the reclamation and reporting of silver be maintained. With our major contribution to the silver reclamation program coming from classified film, we must generally refrain from responding to a request such as this. However, the total amount of silver reclaimed through Agency hypo solution and film is included in the report submitted to GSA by the DLA. The reports you have been receiving from the photography branch in the past, represent only a small percent of the silver reclaimed. Since this data is included in the DLA report to GSA, we shall discontinue this report to you. This should increase accuracy and avoid duplication.
